Showcase description

Agriturismo Floriani is spread out along the panoramic hill of Montanello 300 meters above sea level and is immersed in an ancient forest and an organic farm. It takes its name from Pietro Paolo Floriani, a 17th century military engineer, famous for having designed the ancient walls of the city of Floriana in Malta. Situated 20 km. from the Adriatic sea and 20 km. from the Sibillini mountains and with its own swimming pool, the Floriani offers hospitality in comfortable rooms and apartments. Thanks to its strategic position, it is an excellent base for tourists to visit the most important cultural and tourist sites of the Marches. In the tavern, our guests can enjoy a healthy seasonal cuisine based on traditional recipes. Extra virgin olive oil made from organic olives and jams of our production can be purchased. Pets are welcome. The historic abbeys, the beautiful hikes and the opera season of the Sferisterio are just a few of the opportunities that the Marches offers to its visitors.
