Years of Experience: 5-10

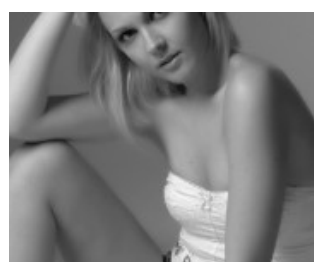

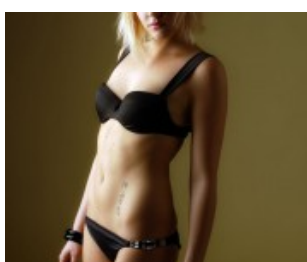

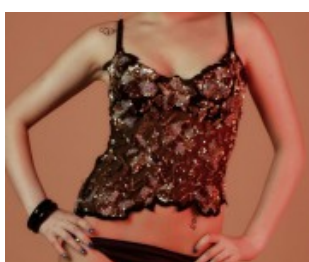

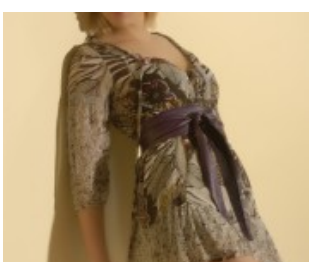

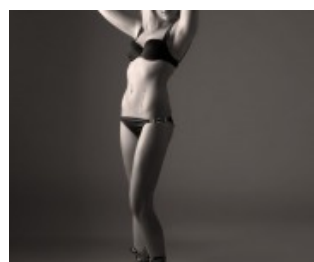

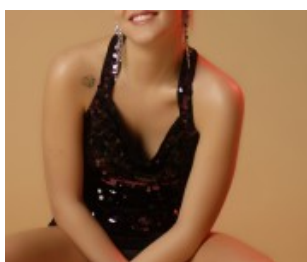

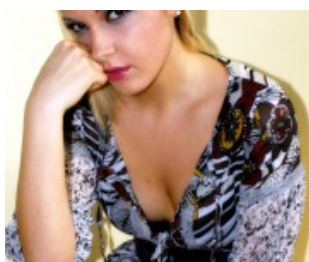

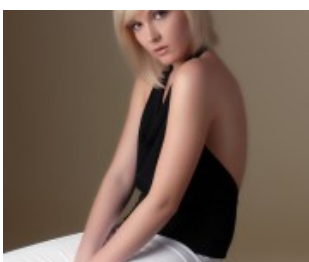

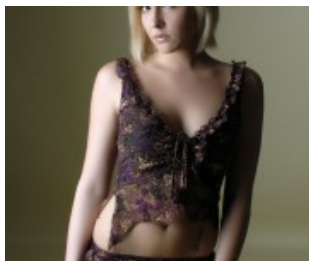

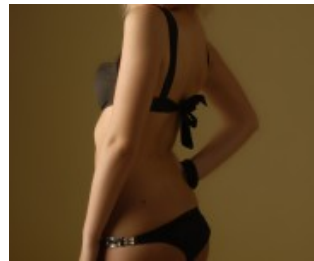

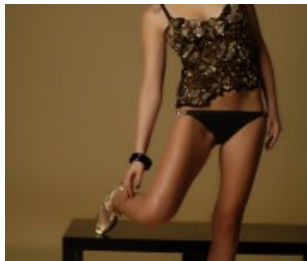

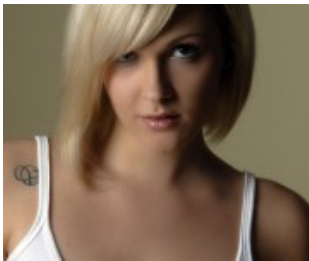

Employment Search: Si

Internships Available: No

Showcase description

I am a college student in Biotechnology at the Faculty of Mathematical, Physical and Natural VR. At age 8 I did my first show so developed a passion for fashion and photography. In this environment I have played various roles that have allowed me to accumulate experience wide-ranging ... I participated in various parades (casual-elegant-costume-accessories) and some years I am delighted to make the model body painting. I worked as a hostess and valley for festivals ... image nightclubs and television shows ... To improve the techniques of work I have participated in intensive stages of gait, photographic exposure and make-up ... in the fashion capital Milan.
