Showcase description

my name is Viola. I take pictures because of the passion I have for photography and I also do it as a job. I think it's importante to have a line that separetes professional works from personal works (for examples commercial photos and personal artistic research) I never lose my personal vision, my eye on the world. Naif the word I use to describe myself (remeber it's really different from immature) i'm a Naif photographer because in all my works I put myself, that dreamy and childish eye. Anyway if you want to tell me something or to know more about my works I'm here.
