Showcase description

Da giugno 2017 sono responsabile della gestione dell?ufficio tecnico per l?azienda operante nel settore ho.re.ca.: dalla creatività ed innovazione nel disegno, al problem solving e alla organizzazione delle fasi di produzione su macchinari per la lavorazione della lamiera. La condizione di studente-lavoratore che mi ha accompagnato per tutto il percorso di studio ha fatto maturare in me la determinazione necessaria a raggiungere i miei obiettivi e a seguire la mia passione per la progettazione.
