Showcase description

I am Artist Visual and Illustrative. I am employed at diverse areas of the image: from the illustration with traditional technology to the foxglove. I have executed works of Art and Graphical Design in wide enough subject matters, so in what I am interested it is to express the ideas of a playful, sensual, experimental and attractive way to the observer. I must say that the fantasy is one of my favorite topics, but I close possibilities neither to ideas nor to other areas of the Art and Design.
