Showcase description

Hi! I?m Alberto Zullo. With a background in other fields, I found my true path in graphic design, a space where creativity and functionality go hand in hand. I bring a practical mindset to every project, from branding to editorial design. I work with Adobe Illustrator, Photoshop, and InDesign, always aiming for visuals that communicate clearly and perform effectively. I recently developed dualtone, the visual identity of my activity, a design system that represents my approach to design. Together with my brother, I also run ZAG stencil studio, a creative space where we experiment with hand-cut stencils and visual storytelling.
