Showcase description

Hi, I'm italian comics artist and illustrator. In art KumiShire or only Kumi. In 2013 I completed the International School of Comics in Florence, where I studied mainly the art of comics. I recently worked with several illustrations mainly for children, but my passion are comics and illustrations for young people or adults. I am a perfectionist and I work on an illustration, as long as it does not meet myself and the client that requires me to work. I work mainly in digital, obviously for tight schedules. However, I'm also able to use the traditional techniques of watercolor and ink.
