Employment Search: Si
Internships Available: No

Showcase description

Hello, I'm Ilaria Leganza, illustrator artist and taught art in Italy. My artistic training took place at the Academy of Fine Arts in Florence, still live and work in this city. My artistic career was born from the study, experimentation and artistic research, around the expressive style of the great authors of modern art history, my personal style comes from surrealist painting, metaphysics, in close relation to the context futurista.Ho got very favorable and opportunities to participate in and organize painting exhibitions in Italy and abroad, in cities very related to my creative work, in Germany and the United States. At this time in my life I deal with illustrations for publishers and hope to develop more and better, this area of my work because I believe it is me a lot. If you want to view and browse my site you will find a small repertoire of my latest works: www.leganzartgallery.it
