Showcase description

Ileana Benzi - Graphic designer 3500260780 printyourlifestyle@email.it www.behance.net/ileanabenzi www.facebook.com/PrintYourLifestyle At the end of my studies, after the first small work experience that introduce all young people into the world of work, I joined as an adjunct in the family business, for which I have held various tasks, including graphic design, design of advertising campaigns, creation and production of textile furnishings and sportswear. At the same time I have successfully performed, for private associations and companies, the activity of graphic designer and designer, dealing with the creation of magazines, advertising material and gadgets of various kinds. I have also gained enormous experience in creative interior design, from the design to the packaging to finish with the installation. The punctuality of the deliveries, the attention to the customer's needs and the attention to details have always distinguished my projects, are able to work independently and ready to compare the group work, I also have good ability in the quick resolution of inconveniences that can arise, putting at risk the respect of the established delivery times. Currently I work as a freelancer designer, and I am constantly looking for new challenges and professional opportunities that allow me to broaden my skills, taking full advantage of my experience in the field and my creativity.
