Internships Available: Si

Showcase description

Good morning, my name is Marco Alborghetti, I am 25 years old, and I am from Treviolo (BG). I graduated in Science of Communicatiob at the Milan State University where I was able to acquire a fair educational level of many aspects of communication, both in general linked to the world of media, and as regards the importance at the theoretical level of conception of communication as such in the world of work. In addition to the training course, I decided for external passion related to the field of journalism to follow 2 courses related to SEO, therefore always related to the world of communication. In the last 6 months I have done an internship at Ewebsolution, a reality of communication where I have already been able to learn a lot in the organizational, as well as creative field. I decided to contact you because I would really like to be part of a reality like yours where I can put into practice everything I have acquired in recent years on a theoretical level. I am aware that there may be technical difficulties for a probable insertion given the circumstances, and I would like to say that I would be willing to start from the bottom, obviously considering a period as an intern.
