Showcase description

I am a girl who has just finished school, out with a good evaluation, but aware that the real world business goes far beyond school evaluation and the achievement of a''media''to be in place. I love the graphic art, communication through images and possess a strong desire to expand my creativity. Above all, a main objective is to learn through new experiences that allow open-mindedness to achieve good levels of communication through what I enjoy doing. E 'strong thought, for a young man just out of school, many areas (especially those of a certain level) they are now more willing to place confidence in the ability of a person and in his desire to learn. Well, my optimism leads me not to believe this too =) I believe in my good requirements, and I know that sooner or later they'll get through where I'm going! e-mail: aurora.daga @ yahoo.it
