Showcase description

And restless creative spirit, hard to please. I love everything that arouses strong emotions, so I have taken refuge in the world of photography and in that of music. I love languages , travel and discovery, are not made to the monotony or safety. I am looking for any feeling, positive or negative, as long as real. I can always be different, a constant surprise. My favorite genres are so many, I rely on what a photographer is able to convey with his style. A photo has to hit, move, be sensible in his madness. I ask for a fee, except for complex jobs to be evaluated. I also wonder if you move a refund. Poso with other models or models.
