Employment Search: Si

Internships Available: Si

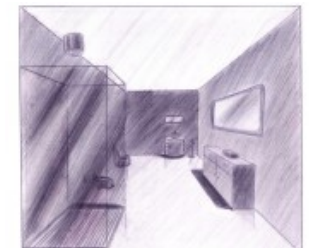

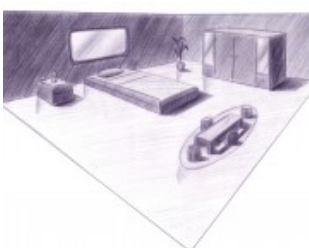

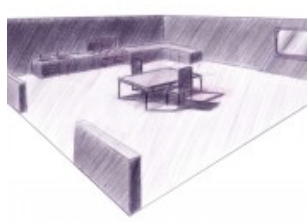

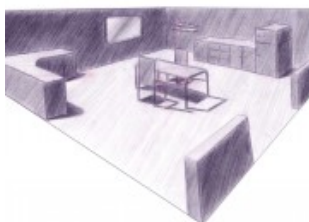

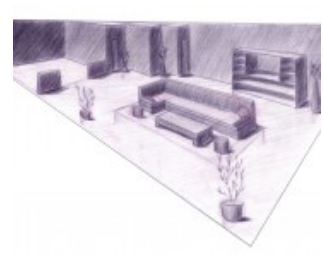

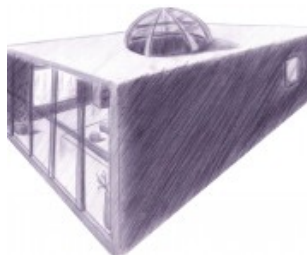

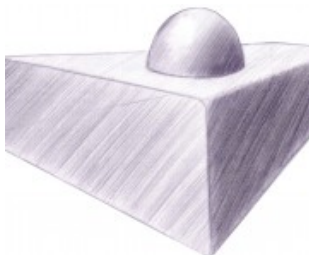

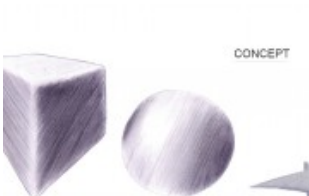

### Showcase description

elisa.colombano@hotmail.it To resume in few words my person: I'm determined and I like simple and clean stuffs. I love dream but after the dream I try to come back to reality, mixing possible and impossible in all the aspects of my life, also in my profession, trying to reflect my personality in my works: this is the element that make them different from the others and unique. The EVOLUTION, the CHANGE of something that starts with a shape and, adapting itself to your personality, at the end of the project assume a different meaning. That's my philosophy: I look for the BEST.

### Exhibition stands

### Other

[illegible]

## A woman in a pink dress stands in a room with large, abstract, patterned sculptures. The sculptures are covered in a dense, black and white pattern, possibly a traditional Japanese textile design. The room has a white floor and walls, and a large, circular, recessed ceiling light fixture.
