Internships Available: Si

Showcase description

The photorealistic rendering allows a notable economic saving than the traditional methods of photography (rental and staging of the photo shoot, transport and assembly of furniture, finding equipment and furnishings). It is also possible to have infinite possibilities to change the virtual set, lighting, framing and finishing. The service is aimed particularly at companies involved in the design of furniture, contract furnishing, and interior designers. From a single image to the advertising catalog. For contacts, please visit the website <http://robertogallocg.jimdo.com/>
