Showcase description

Luigi experiences the territories of the everyday life and his own space, the house, through the digital revolution. The choice of Luigi Consolandi, born in Milan 1984, where he graduated in painting at the Accademia di belle arti di Brera, is quite extraordinary. Since the earliest years of study, he worked using simple materials that were related to the family environment, by creating through the video, painting ecc. and project after project he created the map of the house-territory he lives in, and which he explores and contextualizes his personal action towards the world.

Curriculum

The golden bee, an artwork created by Luigi Consolandi, is a 3D rendered model of a bee, designed to be a digital sculpture. It is a golden, segmented, insect-like creature, designed to be a digital sculpture. It is a golden, segmented, insect-like creature, designed to be a digital sculpture.
