Showcase description

The keywords to describe Valentina's professional career are medley and unstoppable passion. At an early stage of her career, she explores the world of body painting, prosthetics, SFX. Valentina loves to push creative boundaries so she moves to one of the most inspirational cities for art: London. Here she specializes in conventional and new techniques of make up, including airbrushing, and gets into the world of fashion and brides. London is a burst of opportunities and Valentina cannot prevent herself from extending her skills to Asian bridal make up and henna painting. Later on, Valentina joins Bobbi Brown. The insuperable team of Bobbi Brown taught her the best techniques and provided the most amazing make up in order to refine and optimize her bridal make up skills. Not only that, she also learnt how to enhance a woman's natural beauty to make her feel more powerful than ever. Make up is art. To Valentina Make up is fun, challenge and commitment. There is nothing more fulfilling than professionally providing the result the client is looking for.
