Showcase description

Warning: Translated with the electronic translator! Graph,illustrator editorial and advertising. Engraver. Hello, I am 50 years old that drawing, and yet I have not ceased. I studied drawing animated in Urbino in the School of the book, and i have learned to love the graphics. Project books page explaining them and the far 1989 use only the MAC to illustrate and lay out educational books and advertising. To illustrate the narrative the old systems are always the best even if every so often i am captivated by Painter. Work even in the advertising designing logos and trademarks ordinating to forms and advertising media. I love woodworking, engraving and drypoint print with the wooden press that i built with my hands. With brushes from photo retouching realisable naturalistic drawings. Ciao!
