Showcase description

Born in Budrio (BO) on 05.04.1976, married. Mother tongue: Italian. Other language: English (intermediate) French (base). For over ten years working in the world of communication: printing companies, advertising agencies, publishers, fittings for trade fairs and retail outlets. Experiences that, over time, led me to have a multidisciplinary approach to projects of communication and that allow me to work in complete autonomy. I was born as a graphic (photo editing, image processing, prepress) over time my mission becomes creativity: graphic design projects on print and digital (web, BTL, corporate identity, packaging, ATL, logos, adv, retail, monographs, editorials and achievements commercial). Excellent knowledge of all modern graphics applications (Adobe Creative Suite CC (Photoshop, Illustrator, InDesign, Acrobat) Junior experience UI/UX design for interactive kiosk touch. Good knowledge of printing processes and production, paper and materials. Collaborations with Italian and foreign publishers for publishing achievements. I love the design in all its forms, I always like to keep myself updated, I strongly believe in the enhancement of personnel and human resources.
