

O.A.S.S. s.n.c. di Gherard..

Furniture

Location: Italy > Emilia-Romagna > Bologna

Website: http://www.oass.it

Showcase description

OASS was founded in 1974. It initially started out forming metal components; over the years it expanded its range of services to cover the internal construction of dies, carpentry and wrought iron. Thanks to the passion for the latter, its own range of furnishings was created in the late nineties. It was also during this period that new partnerships with companies and professionals in interior design and the furnishing accessories sector were widely established. Over the past ten years OASS can boast the production of some of the finest concept stores of the best known fashion brands, as well as the completion of hotels, villas and prestigious residences on all five continents. The company is at its third generation of craftsmen and the standard of quality, which has always distinguished it, is that of the most authentic ?Made in Italy?, where mastery and exquisite workmanship characterise the true heritage of OASS creations.
