Showcase description

Hello everyone! what'up? My name is ElfoDrowThanatos. Well, not really, that's the way I say to call my as a illustrator but my real name is Giulia Carrus, I'm a Sardinian girl who lives in Germany, near Frankfurt. As I said I'am an Illustrator, but I love to do everything really, from portraits to caricatures in every style because I change it everytime. I often love to reborn, and I'm glad if someone needs opinions or wants to collaborate with me for their "everything they Do". We can make something better together. Always ready to work! *lots of squirrels* & have a good day!
