Years of Experience: 5-10

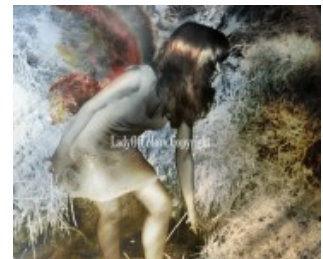

Employment Search: Si

Internships Available: Si

Showcase description

I'm an illustrator/graphic designer from Novara. I use traditional and digital technique to express my art, and I can adapt to any type of target. I use graphics programs (photoshop, indesign, illustrator, lightroom) and basic knowledge of adobe premiere. I know many artistic techniques and I think I'm very creative. I worked in a photographic studio for two years and in a graphic/web design agency for three years.
