Showcase description

I'm Elena Kihlman. I'mdesign and produce home textiles, home accessories and handmade bags. I was born in St. Petersburg in Russia. In the early 90s, I moved to Finland, where I graduated from the Aalto University in Helsinki in 2002. In 2006 I moved to Italy, to Rome, where I then opened a concept shop of Nordic in the heart of Rome. Having had the experience of living in various countries my creative work is based and enriched by these three cultures: Russian, Scandinavian and Italian. Since everyone has different preferences, needs and requirements, I made a point to design and produce a product that can be tailored to meet specific needs. Other important think, I give big attention to the development of new high quality materials for our products. Often I create my own materials.
