Showcase description

Hello, I?m a Designer based in Italy specialized in Print, Illustration and Fashion Graphic Design. After my graduation in Fashion Design at the University of Florence, I worked in Guess/kids department, Roberto Cavalli Junior, Benetton 012 and for a Textile Fashion Company. In my job experiences I was in charge of trends-colours research, development of moodboards, prints, artworks and placed prints for kids/teen and woman collection. I have excellent knowledge in Adobe Photoshop and Adobe Illustrator, but I also have strong drawing skills. I really love to start from a handmade drawing and develop in into an all-over print. In the past, my passion for drawing, led me also to collaborate and work as an illustrator for a communication agency, and a local record label. I love what I do and every project I?ve completed in high quality and maximum attention on details. Ilustration works for fashion, drawings for prints and graphic works. Do not hesitate to contact me for a more detailed portfolio.
