Showcase description

Communication Officer & Digital Strategist, deeply focused on clients' needs. I am basically full time available for any kind of request in terms of communication and marketing issues. Curious & ambitious, I manage autonomously all the communication projects, even regarding advertising, editorial services and social media plans. I follow every single step of a creative process planned for each client (graphics, content, website structure). I am keen on Art, Entertainment, Web and fashion trends. My plus is a very strong personality.
