Showcase description

Born at Eboli the September 11, 1989, always fond of computer science and technological innovations, but also to design, both technically and creatively. For some years he worked as an apprentice "hardware technician" at a small service center, then moved into the field of graphics and advertising, working with a small print shop in his city. Has learned with passion issues / dynamics of the press, the timing and the various facets related to the graphic arts. His primary work environment is the Corel Suite, but also fits in ADOBE environment, with experience in photo editing programs such as Photoshop and excellent knowledge in the field VECTOR. It moves with modesty, perseverance and dedication in order to achieve a satisfactory result for both him and for the customer, and is always open to new experiences, as well as to the growth of their knowledge.
