Internships Available: No

Showcase description

email: bbertare@yahoo.ca mobile: +39-349-4250937 Skype: bea-bea81 Web Site: www.illustratorbertarelli.com I am a freelancer professional illustrator with over 6 years of experience, specializing in digital and manual illustrations for scholastic publishing and not only in fact I am also creating logos, brand identities (business cards, letterhead), packaging, greetings cards, flyers and brochures. I am a very flexible and as a result my cultural background is very diverse: in the past I have held positions that have allowed me to expand my knowledge on the planning of marketing strategies and communication and my passion for travel has led me to know and live in faraway countries that have enriched my professional experience. I'd like to work for the art world because I love my creative jobs. It represents who I am and give me all of the time new challenge to grow and to match personally and professionally.
