## Showcase description

CREATIVE, SPIRITED DETERMINED are the adjectives that best describe me. I am a designer who loves dynamic clean and minimal graphic lines, Graphics and communication are not a job but a passion in-born which I've been able to increase during my studies in Graphic & Virtual Design and during my various professional experiences. During my career as a Graphic Designer and Marketing Manager I have acquired a very personal style, made of lightweight and communicative design. I have worked in different areas, creating a direct relationship with the customer and trying to translate the needs of the same in a design character that would take account of the target audience and market entry.
