Showcase description

www.grafiamo.com Grafiamo borns/originates from the twenty-year experience in the furniture and furnishing industry, fashion and many other sectors of group of talented creative minds with a shared passion, and a solid/strong lasting friendship. Beside our enthusiasm, we commit ourselves in everything we do as customer satisfaction is our primary goal at Grafiamo. Mission - Being creative does not necessarily mean to cause total chaos just to catch people?s attention and attaint visibility. It is indeed important being able to propose novelties but this should be done with extreme clarity and in an appealing manner and sought-after elegance. To start with, we draft/offer a detailed definition of the project (purpose and boudaries), of its layout, from its estimated costs to the control of the lithography process and the final graphic.
