

Cristina Nardelli

Junior Art Director

Location: Italy > Lombardia > Milano

Years of Experience: 5

Employment Search: Si

Internships Available: Si

Showcase description

After my formal studies I have worked with graphics studios and communication agencies, as well as performed independent work. For example, I created the branding graphic for "Younivocal" a startup company that was selected among the winners of the competition ? Changemakers for Expo Milano 2015?. Moreover, I presented some of my work at the NYC exposure. All my training and professional experience have forged my approach to graphics: to keep it simple and effective, original and amusing. I am a very determined person who achieved results both working alone and in team with other designers or professionals in other fields. You can find a collection of my work at this weblink: <http://www.behance.net/cri28>.
