Showcase description

Erika Zolli aka Eribluff is a fine-art photographer, attracted to the potential of photography to lead the observer into a world of surreal poetry. In her photos new worlds and new realities are created, in order to show and explore the invisible dreamlike dimension that lies in the human mind. Her work is a combination of surrealism and lightness: the subjects directly interacts with the surroundings, creating an extrasensory and magical sensation. Her photography is nurtured by accurate post-production and high-precision techniques.
