

Alessandro Bonato

Student

Location: Italy > Veneto > Verona

Years of Experience: < 5

Employment Search: Si

Internships Available: Si

Showcase description

Bonato Alessandro lives in Verona, is a student of Publishing and Journalism at the University of Verona, he graduated in Sciences and Techniques of Graphic Communication Multimedia in 2015. He enjoys digital photography and computer graphics, but especially the travel, in company or alone, to discover novelty. Through my travels I was able to discover the traditions, customs and stylistic currents that made me closer to photography and post production world. My curriculum did excite me to the world of graphics and to understand the thinking that lies behind the simple line or a color. I always dreamed of being able to combine my passions with work; My goal is to reach a position where the creativity and the photograph are measured in an environment with the possibility of development and growth in team. ? <https://it.linkedin.com/in/alessandrobonato> <https://www.flickr.com/photos/alessandrobonato/>
