Showcase description

I am a 2D animation professional with solid experience as a Character & Props Designer, specializing in the creation of characters, visual assets, and high-impact animated content. Throughout my career, I have developed advanced skills in storyboarding, visual storytelling, and the creation of banners and graphic content for social media, always focusing on effective communication and strong brand identity. I actively collaborate with animation studios and publishing companies, both in Italy and internationally, and I easily adapt to different production pipelines and professional creative environments. Alongside client work, I develop personal projects that allow me to experiment, innovate, and maintain a distinctive and market-competitive visual style.
