Showcase description

lisa.chies@yahoo.com My name is Lisa and I'm 22. I'm from Vittorio Veneto (TV) but I should soon move to Milan. I love to travel and photograph the places I visit in order to have always a memory and I like to play sports , especially love playing volleyball and walking in the mountains . I haven't got to work in the graphics industry but I know very well as software Adobe Illustrator, Photoshop e Adobe InDesign because I attended a graphic design course. Portfolio online: https://www.behance.net/c_lisa Regarding my previous work experience I can say that , although in areas and different ways (bartender at Marco Polo Coffee , Vittorio Veneto TV - Employed by Liquigas SpA , Cordignano TV, Portogruaro VE , Scorzè VE) , I have become accustomed to working in teams , to manage peak workloads at short notice and to-people contacts also with customers and suppliers of the companies I've worked for. Right now my dream is to be able to enter the world of graphic and gain experience in various industries like : - advertising graphics -development of logotypes and subsequent design of business cards , letterhead ... - Designing websites Strong of my experiences I try to show more and put all of myself to reach any result , going beyond , not by asking limits !
