Internships Available: Si

Showcase description

I'm an Artist, my passion was to draw, then going to school I found out that painting with oil was my passion. For my own personal experience I have designed High Fashion, then I found that to take all I could do was open, I opened my will to create! But going ahead I found out that it's an endless search for materials and fantasies and everything stinks a whirl of Ideas! I want to be myself, doing what I like most! In manual work I'm self-taught but I've seen learning Jewelery Making Techniques! Like creating beautiful things for everyone and the whole world.
