Internships Available: Si

Showcase description

Dona Natali Baghya Wanaguru, simply known as Baghi, was born in Milan in 1994 to sri lankan parents. As a little girl she used to love so much drawing that she wanted to do only that in her whole life. By the will of her mother, Baghi attended scientific high school and she graduated from Donatelli - Pascal Scientific High School in Milan as a private student. After the high school and with precious support of her mother, Baghi attended Nemo Academy in Florence to follow her dreams. Endend adventures in Florence she attends Event Horizon School in Milan in order to improve in drawings. Programs I know to use for illustrations are Phothosp, Adobe Animate, Paint Tool Sai and Clip Studio (Former Manga Studio). My favourite one is Clip Studio
