Employment Search: Si

Internships Available: Si

Showcase description

I am 19 years old and I am a student at IULM in Communication, Media and Advertising. I am interested in the copywriting of both classic and new media communication campaigns. I have the creativity I need to face new challenges that I always overcome with sectoral processes of identifying the copy. I regularly collaborate with art directors, graphic designers, photographers and video-makers to improve my skills in creative planning in several sectors. I would like to work with creative teams like me to give free rein to my ideas.
