Showcase description

It's hard to talk about yourself without being self-referential, something that I never liked. I did the Academy in order to acquire the skills that allowed me to be a photographer in the true sense of the word. Photograph gives me a chance to express myself consciously from a creative point of view. What to look for in a photo? Seeking thrills, seeking to provoke, I try the taste and style. I consider myself creatively eclectic though I shouldn't be the one to say it, but I think my pictures speak for themselves. I love the photographic image and that means happiness to me. I'm a positive person with good communication skills. I am highly motivated and very focused on the costumer. I do whatever it's needed and I go wherever it's necessary in order to obtain great results. I love traveling and I'm willing to start every kind of training that could improve my skills.
