Showcase description

I have been writing and correcting texts of any kind since 2000. I published and edited fiction and non-fiction books, the last of which is "Runningsofia. Filosofia della corsa" (Il Nuovo Melangolo, 2019). I work as sports editor for Repubblica.it and for the Moondo portal. I invented and run Bed&Runfast (https://bedandrunfast.com/), a portal that connects the world of running and that of accommodation. I invented and co-direct Squadernauti, a biannual literary magazine. I would like to write, to learn while having fun, or to have fun while learning.
