Showcase description

My name is Marco and I graduated in illustrator design at the IED in Milan. I worked as a cartoon animator and draftsman and then embarked on the career of director and producer. After an experience in cinema I refined my professionalism in television and in advertising, first as a director and then as a production manager and executive producer. I am looking for a stable job after many years as a freelance, with whom to share my experience and learn again. CONTACTS mailto: marcoolivari1974@gmail.com mobile: 339 3945748
