### Showcase description

My name is Chiara Schiappa and I'm a graphic designer. I have been working in advertising for about 15 years and I started collaborating in small studios and printing houses in my area, after finishing my graphic design studies at the Academy of Fine Arts in L'Aquila - Italy. Gradually I acquired the knowledge to mature and evolve and thus be able to work in different agencies and communication studios that have brought me great professional results. I am currently employed in a communication agency as a graphic designer, but I believe that improving one's skills and learning from new experiences is a fundamental rule in our work. I need to take a step forward in my career! I would like to work in a dynamic, creative and stimulating environment, preferably in smart working. I am an organized professional, flexible and able to work in a team but also alone. I love communication and technology, graphics and art and I like to be always updated on the latest trends. I have relational and organizational qualities useful to implement a corporate team.
