#### Showcase description

In 2018 the reality of Il Faro Grafico was officially born, a young company therefore, but the team that constitutes it is strong with years of experience in the web marketing and advertising graphics sector. Il Faro Grafico is a web agency of creatives based in La Spezia. We design and build websites, and thanks to various web & graphic design, web marketing, social media and advertising graphics services we give your company a face, in such a way as to be unique and unmistakable, with the main purpose of increasing its visibility by converting its users into useful contacts, relative to the context in which it operates.
