Showcase description

My name is Sara Andrea Tuzza, I was born on 10 July 1998 and since childhood drawing has been my most great passion. I drew everywhere, on papers, on house walls, on car windows .. and on Paint, where I started to love digital drawing. After a scholastic course both of artistic high school and of graphic institute I decided to try to make mine passion a profession, after attending an internship at the Principi ADV company, where I am specialized in digital drawing by designing some surprises for Kinder. I deal with graphics and illustration in all its aspects, from the creation of logos to the graphics of websites, layouts, flyers, advertising banners, gifs, projects for board games or physical etc ... in addition to any kind of artistic or digital illustration, such as cartoons, illustrations, illustrated graphics, portraits, paintings, murals, emojis, tattoo designs, artistic logos or whatever else you need (using the Adobe package and an XpPen graphics tablet). For any information or question do not hesitate to contact me on my number 3779409672 or on my email sara.andrea.tuzza@gmail.com.
