Showcase description

Goodmorning everyone. I'm Verdiana and I'm an aspiring cartoonist and illustrator. Graduated from the Boccioni high school in Milan, I decided to do a three-year course in comics and illustration at the Higher School of Applied Art of the Castello Sforzesco. Then I gave priority to my desire to be independent and I embarked on another professional path that has accompanied me until now. I signed up to make available my art and my desire to live of it. Let's see if I can change my life!
