### Showcase description

I'm Valeria Foti and in July 2019 I graduated in Foreign Languages and Literatures (Statale of Milan). Once finished my career, I decided to chase my passion for sport and communication and so I started a Master in Sport Communication at the Cattolica University of Milan. This master gave me the opportunity to discover all the aspects of the sport and communication world. In fact, it gave me the chance to improve my social media vision and to introduce me into the graphics world. At the moment, I'm finishing a curricular stage at the Handball National Federation and as regards my professional future I hope to work in the digital communication world so that I can develop all my skills learned during my studies.
