Showcase description

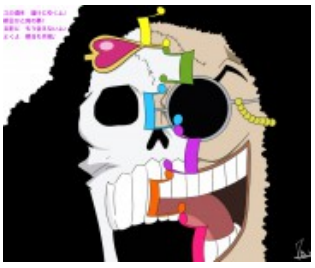

Hello! My name is Matteo, I am 19 years old and I am an aspiring cartoonist / illustrator. Since i was a child i had this passion for drawing and I have always been into this magical world to being able to improve myself more and more. I love the world of comics, especially manga, despite this I always try to vary a lot with the drawing styles to expand my knowledge. As an aspiring Illustrator I try to be as flexible as possible, trying to be able to complete any work that is proposed to me; in general I create logos, illustrations on request, illustrations for children, graffiti style writings, personalized cards for the holidays. I work almost exclusively digitally thanks to the Ipad and the Procreate program and therefore my works will be sent digitally, unfortunately I am not able to deliver the works physically. I prefer contact by e-mail: teonakhilo@gmail.com If you have come this far, I thank you infinitely for the time you have dedicated to me, I hope I have aroused your curiosity!
