Years of Experience: 5
Employment Search: Si
Internships Available: Si

Showcase description

Hi! I'm Elena Ferrando and I'm a young advertising graphic designer from Genoa. I graduated in Graphic Design & Art Direction in Milan and then I followed an online course in Social Media Advertising. I am the podcaster of "Io sono Alice", a project born in collaboration with the anti-violence center of Genoa, which aims to raise awareness on gender-based violence. In my life I am always looking for new incentives and new experiences.
