Employment Search: Si
Internships Available: No

Showcase description

Instagram: @valentina.marinaccio.art I am illustrator, watercolorist, digital artist and I love ink. Currently I make advertising graphics and layouts but my main job and what makes me really happy is Drawing and Painting. I love fashion, flowers and nature. My main subjects are women. I would like to devote myself more to fashion and nature by contributing to the realization of projects aimed at making this world more beautiful and making beauty the main objective in the development of the human being.
