Showcase description

I am a mix of Fashion Stylist, Seamstress, Pattern Maker, Fine Art Painter, and Fashion Illustrator. I create fashion drawings, which combine all the components that I listed above, these drawings can be used for various purposes, from proposing a new fashion line without the initial costs of production, and at a later stage based on demand the selective production of garments, or used for Artistic Prints for Furnishings, or for Prints on Objects, from Stationery to Printed Fabrics for both Clothing, T-shirts, etc. what bedspreads etc. While I look for the opportunity to implement this, my desire is to do what I am doing, with a company or employer.
