### Showcase description

Graduated in Graphic Design, I am a diligent seeker of balance between creative inclination, dedication, and execution rigor. I have always been passionate about visual arts, and my journey has given me the opportunity to appreciate every facet of it. Drawing and a love for art led me to explore my creativity more and ultimately made me passionate about graphic design, through which I have been able to express myself to the fullest. I possess excellent skills in multiple areas, including Web Design, UX/UI Design, Brand Design, Motion Graphics, Infographics, Illustration, and Packaging. I am looking for opportunities that can challenge me, enabling me to continue my growth and expand and solidify my experience.
