## Showcase description

Hi, I'm Elisa Pia Cassetti and I'm 21 years old. I am originally from Corigliano-Rossano, a Calabrian city in the province of Cosenza, but I have been living in Milan for two years now. Since I was a child I have developed a great passion for the fashion world and over the years I have become more and more interested in the world of communication and consequently in communication agencies. I have always tried to learn as much as possible about this topic by studying from books and websites and, after graduating from language school, I made an important decision: I started my studies at IED attending the course of Fashion Stylist and Communication, with a particular attention to communication. During my years at IED I have acquired valuable soft skills such as teamwork, flexibility and problem solving. At the beginning of the third year, I was chosen by the Stella McCartney brand to collaborate with a company thesis on the supply chain. My aspiration is to work in the world of communication agencies and I love the idea of putting into practice everything I have learned and continue to grow in the working world. I am not afraid of the challenge, but I am determined to show how much I can contribute in this area. The path to success can be challenging, but passion and determination are my best weapons. I will continue to follow my heart, to learn every day and to pursue tenaciously my dream of working for communication agencies. I am sure that, with dedication and constant growth, I will achieve great goals in the fascinating and competitive world in which I have chosen to shine. Elisa Pia Cassetti
